

System Requirements

Group and Enterprise Editions

A typical Maximizer implementation consists of a server and one or more workstations. The hardware and software requirements for each type of Maximizer installation are listed in the following tables. Please refer to the Maximizer website at www.maximizer.com for updated information.

Note that these are the minimum system requirements for Maximizer, and your operating system may have higher requirements for some components, such as processor speed and RAM. Refer to your operating system documentation for OS-specific requirements.

Maximizer CRM Enterprise Edition System Requirements

Software on the server where Maximizer components for Microsoft IIS are installed	Microsoft Internet Information Server 6.0 (Windows Server 2003), 7.0 (Windows Server 2008), or 7.5 (Windows Server 2008 R2)	n/a

Note Microsoft Windows XP Home, XP Media Center, Vista Home/Home Premium, and Windows 7 Home Premium are not supported in a network environment when logging into a domain is required. Refer to your Microsoft documentation for details on how to set up networking in a workgroup environment.

Maximizer components for Microsoft Internet Information Services are not supported on any Windows XP-based, Windows Vista-based, or Windows 7-based computers.

Because Web Access (Maximizer components for Microsoft IIS) may have to handle larger amounts of processing (as the number of concurrent Web Access clients increase), we recommend that you install Web Access on a server with dual or quad processors and more RAM than the minimum requirements. In addition, it is recommend that customers that are planning a deployment of Web Access on a server machine that potentially will have physical memory demands in excess of four gigabytes of physical RAM deploy on a 64-bit operating system.

MaxExchange System Requirements

	MaxExchange Synchronization Server	MaxExchange Remote
Minimum Processor Speed	1.6 GHz (minimum) 3 GHz or faster processor (recommended)	1.0 GHz (minimum) 2.0 GHz or faster processor (recommended)
